RE: submission on ministerial direction on National and Secondary routes. My family live on N68 at above address and all our lands are abutting the N68 on both sides of the road. None of our lands abuts any other road. We are retiring and giving our land to our son Martin, who wishes to build a family house on it. It looks that under the proposed rule that he will be denied permission and therefore become homeless or have to rent a house away from the land. This will cause him to enter and leave the land many times during the day and night. (cows calving) This will cause a greater risk of accidents to both himself and others. The proposal is absurd, discriminatory and creates more problems than it solves. Our modest home can not accommodate two families.

Yours,

Alan and Geraldine Hill
