Subject: Draft Clare Draft Development Plan 2023-2029 objection submission 54

Re: Submission 54
by Merriman solutions.
Located at Clarecastle

We the residents of Sli an Fhearghas, Clarecastle,Co.Clare wish to object to this submission for the following reasons :

1)Biodiversity of area.

This site is a river bank with an array of flora and fauna.

It would be better suited to a green way encompassing nature.

A board walk to join up with the Ennis river walk already completed this would be very beneficial to the local area.

This area along river is of great natural beauty.

2) Flooding

We the residents of Sli an fhearghas are concerned about the flooding on this site.

As it is a flood plane. We already pay added extras on our house insurance.

3) It is stated in submission 54 that local residents were spoken to regarding plans. I wish to confirm that no one approached us all in this regard.

4)Visual amenity of this area not being taking into account.

5)Contrary to Clare Development Plan.

We wish for this site to remain under its current zoned position.

Kind regards
Sli an fhearghas
Residents committee
