Riverdale are Clonard are under severe threat of flooding. We need this open green space to absorb the over flowing water from the river Shannon which backs up into the estate in winter. Without this open green space the overflown water from the river Shannon would have nowhere to be absorbed leading the house built in this space to flood and also existing houses in the area. Local residents of Riverdale tidy and maintain the area and I myself often walk my dogs in the area along with my grandchild. Anymore traffic into this narrow area would put my grandchildren and children from not only Riverdale but Westbury its self in danger which increased traffic flows where the streets are badly marked.
