The reason Boston has experienced little growth is not due to lack of infrastructure. It is because private development of the zoned lands is not economically viable and so will remain untouched putting greater pressure on locals to find any local housing. Given there are practically no residential units available for rent in the parish along with the continued unavailability of development sites within the settlement lands is accelerating the decline of this local area. The statement on enterprise should support any rural based enterprise and not be limited to farm or agri-tourism, both of which have very limited scope to support a local economy. Zoning map, area C2 should be extended to take in the established Boston Childcare site at the rear of the church.
