RE: County Development Plan

Dear Sir/Madam,

I, Matt Gleeson, wish to state that the new County Development Plan should revisit the zoning of wind farms given the impact these monsters have when they are situated in close proximity to residential areas. My family and I are living permanently in this locality, approximately 1 kilometre from a proposed development of 8 wind turbines measuring 175 meters high, and there is a possibility of more being erected in the future. We live in a beautiful quiet place and this is about to be destroyed. We have a vibrant community with a lot of young families and they deserve to enjoy a safe peaceful environment to raise their children. There are also older people here who have lived and worked here all their lives and are entitled to peace and tranquillity in their twilight years.

These developments only benefit a few, and the developers are not living under the shadow of these unsightly monsters.

Yours sincerely,

A handwritten signature in black ink that reads "Matt Gleeson".

Matt Gleeson.
